

Tumor Board Application

Tumor Board preparation and presentation can be time-consuming and cumbersome, often leading to inefficient use of staff and restricted flexibility during case presentations.

Aperio's ScanScope® systems and Spectrum™ Plus information management software can now make Tumor Board processes smoother and more efficient.

"Having a whole slide to show at tumor board allows for a much better experience than a few photos of selected areas."

*– Bernard Chang, M.D.
Laboratory Diagnostics Medical Group*

STREAMLINES PREPARATION

- Reduces pathologist preparation time
- Improves workflow
 - *Replaces laborious photography of selected areas with easy-to-use scanning and digitizing of whole-slide images*
 - *Allows better clinical review and preparation for presentation*
 - *Provides ability to annotate slides for enhanced presentations*
 - *Eliminates duplicate work for cases rescheduled or returned to tumor board*

IMPROVES THE TUMOR BOARD EXPERIENCE

- Provides higher quality images than photomicroscope technologies
- Allows pathologist to present in more "fluid" manner
 - *Provides low power whole images for more flexibility*
 - *Easily zoom to high power for relevant details*
 - *Enables navigation through slides more efficiently*
 - *Supports ability to speak to any region of a slide on demand*

Aperio Solutions

SPECTRUM™ PLUS

Spectrum™ Plus is the most comprehensive, web-based digital pathology information management software developed for digital slide viewing and conferencing, workflow management, data archival, intelligent retrieval, and image analysis. It integrates seamlessly into your workflow, improving the quality and efficiency of pathology services and can be optimized for Tumor Boards.

SCANSCOPE® SCANNERS

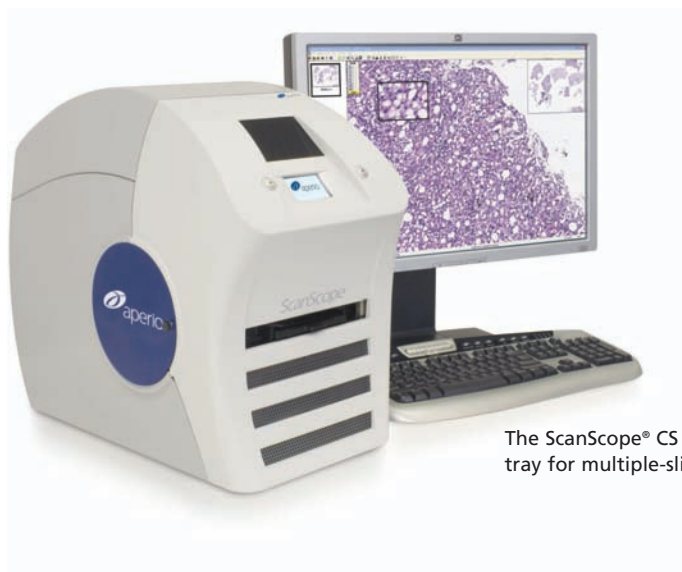

Choose the best scanner for your needs from our award-winning line of ScanScope® scanners. Our five-slide ScanScope CS is ideal for medium-volume sites, while our 120-slide ScanScope XT is best suited for high-throughput environments.

INCREASES CLINICIAN SATISFACTION

- Improves the experience of reviewing pathology images
 - *Allows overview and detail of tissue simultaneously*
- Presents images that more accurately reflect material used for diagnosis
- Provides a better educational experience for all parties

Aperio's Tumor Board application can be conveniently set up in your laboratory with a ScanScope system and Spectrum Plus management software.

- Scan with rapid load and one-button automation
- View and edit digital slides with our user-friendly and freely downloadable ImageScope™ viewing software
- Save and name digital images in Tumor Board configured data source
- Annotate images to illustrate areas of relevance during presentation
- Share images with remote attendees through digital slide conferencing
- Archive and retrieve previously prepared cases

The ScanScope® CS features a five-slide tray for multiple-slide scanning.
