

Engineering Sr. Technician **Job Description**

The Company

Aperio is the leading provider of digital pathology solutions in hospital and reference labs, academic medical centers, and biopharma institutions across the world. Today, our affordable and complete product portfolio is proven to lower costs, increase efficiencies, and enhance workflow in labs everywhere. Our comprehensive product line features our ScanScope® scanners, Spectrum™ image management (PACS) software, SecondSlide™ slide sharing service for pathology, and image analysis tools and services.

Aperio's products are FDA cleared for specific clinical applications, and are intended for research and education use for other applications. For clearance updates and more information please visit www.aperio.com.

Summary: Work closely with engineers to support design, assembly, integration and testing of electro-mechanical & optical equipment. Position requires a highly motivated person who enjoys working in an engineering lab environment as well as with manufacturing personnel.

Major Responsibilities:

- Communicate effectively in conversations and email with engineering personnel.
- Follow engineers' verbal instructions and written processes and procedures for electro-opto-mechanical assembly.
- Execute tests of engineering hardware, using a PC, and common electronic test equipment.
- Enter data results into Excel spreadsheets or Word documents.

Qualifications:

- Good interpersonal skills. Able to work with engineers. Have good understanding of engineering guidance.
- Familiarity with electronic schematic and hands-on experience with populating electronic components on breadboard and PCB
- Familiarity with mechanical drawings and machine shop procedures, and hands-on experience with drill, band saw, and hand saw
- Experience with electronic equipment, e.g. power suppliers, multimeter, oscilloscope
- Familiarity with MS Word and Excel and able to perform data entrance in Excel and write small reports
- Experience with test procedures

Requirements:

- 3-5 Years work experience in an engineering environment
- Able to solder SMT components for small prototype
- Experience with equipment testing

Location and type:

Full-time *temporary* employment in Vista, California
