

## **Production Supervisor** **Job Description**

### **The Company**

Aperio is the leading provider of digital pathology solutions in hospital and reference labs, academic medical centers, and biopharma institutions across the world. Today, our affordable and complete product portfolio is proven to lower costs, increase efficiencies, and enhance workflow in labs everywhere. Our comprehensive product line features our ScanScope® scanners, Spectrum™ image management (PACS) software, SecondSlide™ slide sharing service for pathology, and image analysis tools and services.

Aperio's products are FDA cleared for specific clinical applications, and are intended for research and education use for other applications. For clearance updates and more information please visit [www.aperio.com](http://www.aperio.com).

### **Summary**

Reporting to Director of Manufacturing, The Production Supervisor is responsible for managing, directing, and coordinating daily production operations by establishing priorities, sequences, and proper staffing in order to ensure we deliver quality products on time to our customers. You will also be required to analyze production reports so as to identify areas for improvements, including training of operators, corrective action, and process improvement recommendations. Once issues are identified you will create action plans to address underperforming areas. In addition, you will support two-way communication through department meetings and various teamwork processes, as well as provide ongoing and annual appraisals for all direct reports.

### **Major Responsibilities:**

- Schedule manufacturing operations to build, test and deliver products to meet customer orders.
- Direct work assignments to manufacturing direct labor to meet production schedule.
- Ensure that all operations are performed in accordance with Aperio Quality System Procedures.
- Supervise employee training, ensuring that all personnel are properly trained.

### **Qualifications:**

- Ability to prioritize work assignments and control workflow.
- Ability to communicate effectively with upper management, supervisors, co-workers, and direct reports.
- Good understanding of lean manufacturing principles and processes. Ability to implement and maintain lean manufacturing initiatives in assigned areas.

### **Requirements:**

- BS/BA in Industrial or Manufacturing Engineering. Requirement may be waived based on sufficient work experience.
- 3+ years production supervisory experience in medical device industry

### **Location and type:**

Full-time employment in Vista, California

### **Compensation and benefits:**

Aperio pays our great people salaries commensurate with market value, and provides full benefits including health benefits and a 401(k) plan. All Aperio employees participate in our stock option plan.

### **Contact**

Aperio is committed to attracting and retaining the most highly qualified candidates available. As an Aperio employee you will be consistently challenged to deliver your best. Because we provide our customers the best technologies and service in the industry, you will constantly develop new skills, learn new products, and be involved in activities that are highly valued in the marketplace. At Aperio, we value our customers as partners, and therefore strive to deliver excellence in everything we do. If you are ready for this challenge, contact us by sending your resume to [jobs@aperio.com](mailto:jobs@aperio.com). Please include the position title.

Aperio is an equal opportunity and affirmative action employer. We support workforce diversity.
